

### Summary

| Item             | Description  |
|------------------|--|
| Use Case ID:     | 3  |
| Use Case Name:   | Manage Profile   |
| Description:     | How to update a Resource Parent profile and continue to access personalized services.              |
| Actors:          | Resource Parent, System  |
| Triggers:        |  |
| Pre-Conditions:  | 1. Resource Parent is logged in, see use case log in to profile                                    |
| Post-Conditions: | Main Flow: 1) System updates profile information<br>Alt Flow 1. System does not implement revision |
| References       |  |

### Main Flow

| Step       | Action/Cause/Stimulus   | Reaction/Effect/Response   |
|------------|---|--|
| 1          | Resource Parent logs in to their account                        | System displays the Resource Parent's profile page which shows their first name, last name, and email address as entered during their account registration |
| 2          | Resource Parent enters their personal information               | 2.1 If the Resource Parent saves their information, the System continues to step 3<br>2.2 Otherwise, the System does not continue to the next step         |
| 3          | Resource Parent saves their personal information                | System updates the Resource Parent's profile to include the personal information saved   |
| 4          | This completes the use case                                     |  |
| Alt Flow 1 | From Step 2   |  |
| A1         | If the Resource Parent does not save their personal information | System does not update the Resource Parent's profile with the information  |
| A2         | This completes the Alt Flow                                     |  |
