Pre-Conditions:	Resource Parent visits website
Post-Conditions:	Main Flow: 1) System creates a profile secured by an email address and passphrase. 2)Resource Parent is logged into their profile Alt Flow 1. No profile is created.
References	

Main Flow

Step	Action/Cause/Stimulus	Reaction/Effect/Response
1	Resource Parent visits website	System displays the website home page
2	Resource Parent navigates to the registration area, and initiates a new registration	2.1 System redirects Resource Parent to a registration page. 2.2 System prompts Resource Parent for their first name, last name, email address, and both a password and password confirmation containing 6 characters at minimum
3	Resource Parent enters and submits their registration information	3.1 System checks that the required fields are complete, the email address has not been previously registered, and if the password is adequate. 3.2 If check passes, continue to step 4 3.3 Otherwise, the System alerts the Resource Parent to the problem, and does not continue to the next step.
4	Resource Parent completes their registration adequately	4.1 System establishes a profile containing the information submitted which is secured by an email address and password. 4.2 System redirects the Resource Parent to their profile page 4.3 Otherwise, the System does not establish a profile.
5	This completes the use case	
Alt Flow 1	From Step 4	
A1	If the Resource Parent does not complete their registration	System does not establish a profile
A2	This completes the Alt Flow
